RE: THE WU-CHI SCHOOL OF ARTS

This is to certify the calibre of the Wu-Chi School of Martial Arts and its work.

Over the past 4 years this organisation has come to my attention as a valuable asset to our communities. Its influence is a contributing factor to the stability of our society.

The use of the school as a method to teach responsible conduct dispels the common view that every Martial Arts School breeds aggressive behaviour. This ingenious approach to character development gives its members self-respect and a positive direction in life.

I know the founder Mr Arthur CUNNINGHAM to be a man of rare insight, with a genuine respect and concern for all people. In my professional opinion both he and his colleagues are honest, hard working individuals committed to the aims and objectives of their school and its work for problem youth.

It is a relief for me to see a group skilfully working at the roots of today's social problems.

As head of Police operations in one of the toughest areas of New Zealand, I wholeheartedly support their efforts and encourage others to do likewise.
